## Introduction

On Behalf of the ADAA Board I would like to thank all Participants, Sponsors and Stall holders for their willingness to take part in this the inaugural Dogmania, Canine Sports Carnival. My thanks must then also go to the amazing group I have had aiding me in preparation of the event. An event of this magnitude has taken considerable preparation and on a scale very different to organising an event for any 1 individual Sport.

The result is this great mix of Canine Sports, so members of the public as well as competitors can experience the diversity of activities in which they can participate with their dogs. There is a great range of goods for sale or being promoted by our Stallholders and Sponsors. We appreciate their assistance in making this event the success I am sure it is going to be. We hope all find it a positive experience and are thus ready and lining up for participation in Dogmania 2009!

Marion Allen  
Dogmania Co-Ordinator

# Pine Agility Dog Sports Club

A friendly club promoting fun and exciting new ways to teach you and your dog old and new tricks!

Thank you for your support

Agility is a Team Sport where the handler is in charge of the strategy and the dog is responsible for the athleticism. Dog's leap over hurdles, power through tunnels, zip through a slalom of upright weave-poles and scale ramps of different sizes. The aim is to find the balance between the control of the dog and the speed of the performance.

During Dogmania, 4 rounds of each of 4 different formats of Agility will be run over the course of Saturday and Sunday. The top dogs will compete in the Finals on Monday. In the Agility Rounds, a combination of obstacles including contact equipment is used whereas in the Jumping Rounds equipment is limited to hurdles, tunnels and weave poles. In both, the aim is to achieve a fault free round in the allowed course time following the numbered course set by the judge.

The purpose of Gambler's Rounds is to demonstrate strategy and to test the Handler and Dog's ability to work at a distance from each other. The object is for the team to accumulate as many points as possible during the Opening Sequence and successfully complete the Gamble (without Course Faults or Refusals) during the Closing Sequence.

Snooker is to test the Handler's risk strategy and the Handler and Dog team's skill as they work together against the clock. The object of a Snooker Class is to accumulate as many points as possible during the Opening Sequence and successfully complete the Closing Sequence in the prescribed order, without Course Fault or Refusals within the allotted time.

## Canine Disc

presented by the  
Brisbane And Region K9 Disc Club

### Introduction

Canine Disc is for all breeds and sizes of dogs. If your dog can fetch a tennis ball or toy and return it to you, you are on the road to having a Canine Disc dog. Everyone is welcome to compete in all of the canine disc competitions at Dogmania, to be held Saturday night, Sunday night, and during a break in the agility action on Monday.

Canine Disc is played on a 60 metre x 25 metre field with the field marked at 10 metre intervals. Each dog and handler team compete in 2 x 90 second rounds of Toss and Fetch and score points by making catches beyond 10, 20, 30, 40 metres. Points are scored at 1 point for catches exceeding 10 metres, 2 points for 20 metres, 3 points for 30 metres, 4 points for 40 metres. All throws also score an extra 1/2 point if the dog catches the disc with all 4 feet in the air in an obvious leaping motion. The winners will be those teams that have the highest totals after adding up their scores from all rounds of Competition.

Dogmania is the venue for the inaugural Australian Canine Disc National Championships, to be held Sunday night and Monday. On Sunday night, all the teams compete together in 2 x 90 second rounds and the top 6 Teams after the scores for both rounds are added progress into Monday's National Championships Final. The 6 National Finalists will compete over 2 x 90 second rounds with the highest scoring team during those 2 rounds becoming the first Australian Canine Disc National Champion.

### Needing Medical Assistance??

**For our Pets:** Eatons Hill Veterinary Surgery at the entrance to Dogmania

Ph: 32647700. Open Saturday 8am-5pm Sunday 9am-12noon

Specialist clinic during the week, and an Emergency Centre with Vet on duty 24 hours a day.

**For Humans:** 000 Ambulance station is directly over the Intersection;

Corner Eatons Crossing Rd and South Pine Rd, Eatons Hill.

## Short Course 3 Sheep Trial

presented by the  
Working Sheep Dog Show

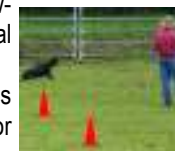

Short course trials are similar to the more technical 3rd sheep trials however they are achievable without having a specially bred [3 Sheep] Trial Sheepdog.

The aim is to move the stock calmly under control through the obstacles to the Pen with the minimum amount of points being lost, with competitor time also being recorded. The Trial is conducted in an enclosed area, with the course being between 200 and 300 metres long. Each dog will commence with 100 points. Points will be deducted during the run for any misdemeanour or fault by the dog or any assistance other than commands given by the handler. There is no Cast or out run required to pick the sheep up, instead they are released onto the field where the Handler and Dog take control of the Sheep and start the Course.

Points are deducted for being off line. i.e. When moving the sheep from one obstacle to another, the competitor should walk in a straight line. Points are deducted if the competitor stops between obstacles. Points may be deducted for slow work.

The course is completed when the all sheep are in the pen and the gate is closed.

## IPO Dogsport

presented by the  
Brisbane Sporting Dog Club

### Introduction

The Brisbane Sporting Dog Club Inc is affiliated with the Australian United Dog Sport Clubs Inc.

IPO Dogsport is a fun and exciting sport for participants, their dogs and spectators. The sport involves people from the hobbyist to the world class competitor and all of those in between. Most of our members are hobby trainers and they train and compete for fun and recreational sport, however some of our members are high level competitors with one of our members successfully competing in the 2007 IPO FMBB World Championships in France. IPO Dogsport has an entry level called a BH which involves entry level obedience and environment type testing. Once you pass your BH you may compete in IPO I, II and III. These competitions have three (3) components, tracking, obedience and character assessment.

Tracking, depending on the level, requires the dog to find it's way around where a person has walked previously (this could be from 30 minutes to a 1 hour) with varying articles (leather, wood, material) placed along the track. The dog must follow this track precisely and indicate on all the articles left by the track layer.

IPO Obedience is marked on the precision of the performance involving many obedience exercises including retrieving dumbbells over a 1m high jump and 1.8m A Frame. Character Assessment is where the utmost control and teamwork is shown and the temperament of the working dog is displayed.

Our members are responsible dog owners who recognize and promote the value that well trained and well bred dogs can bring to our community. Some of our members are breeders who have produced working dogs for the community such as Police, Search and Rescue, RAAF, Detection dogs, obedience and the family companion dog.

Everyone is invited to meet  
Dogmania's Monster Mascot,

**Mani the Maniac** at 11, 1 & 3

Take your photo with Mani at no charge.

## Dances with Dogs

presented by  
VIP Petfoods Dog Club

teach your old dog  
new tricks at the

VIP Petfoods Dog Club is presenting the new sport of Dances with Dogs with a special demonstration at Dogmania.

Basically, a dog and handler have to work together as a team to a chosen piece of music showing various moves which could include spins, twists, turns, walking backwards, weaves, sidewalking and precision heelwork. Theatrical, costumes, make-up etc play a big part in our routines - we love our glitz and glamour!!
